Infrared Saunas

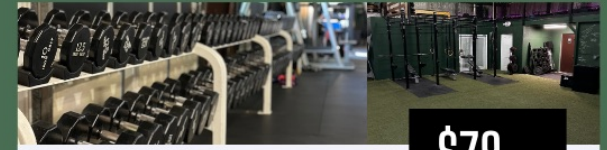

ABOUT US

This family-owned operation began in 2020, following our national lockdown with hopes to create a space for the driven. By 2024, Husband and Wife, Nate and Kristy Cronister quadrupled their early beginnings and filled the space with specialized gym equipment and locker rooms.

The building was officially open 24/7 for members. The 10,500 sqft facility houses a full staff of certified personal trainers, 2 infrared saunas, private showers, a nutrition shop, a pilates loft, and a community striving for authenticity. Kansas Built Fitness welcomes all veterans, first responders, and military personnel who will receive 10% every purchase. Welcome!
